Why should I use this offer?

Protect the Environment

The climate is important to us. The flos run purely on electricity, so they don't produce any harmful emissions while driving.

Save Money

Drive a flo without having to buy a vehicle or pay for repairs. The motto of carsharing is »use instead of own.« This makes sense not only for occasional drivers!

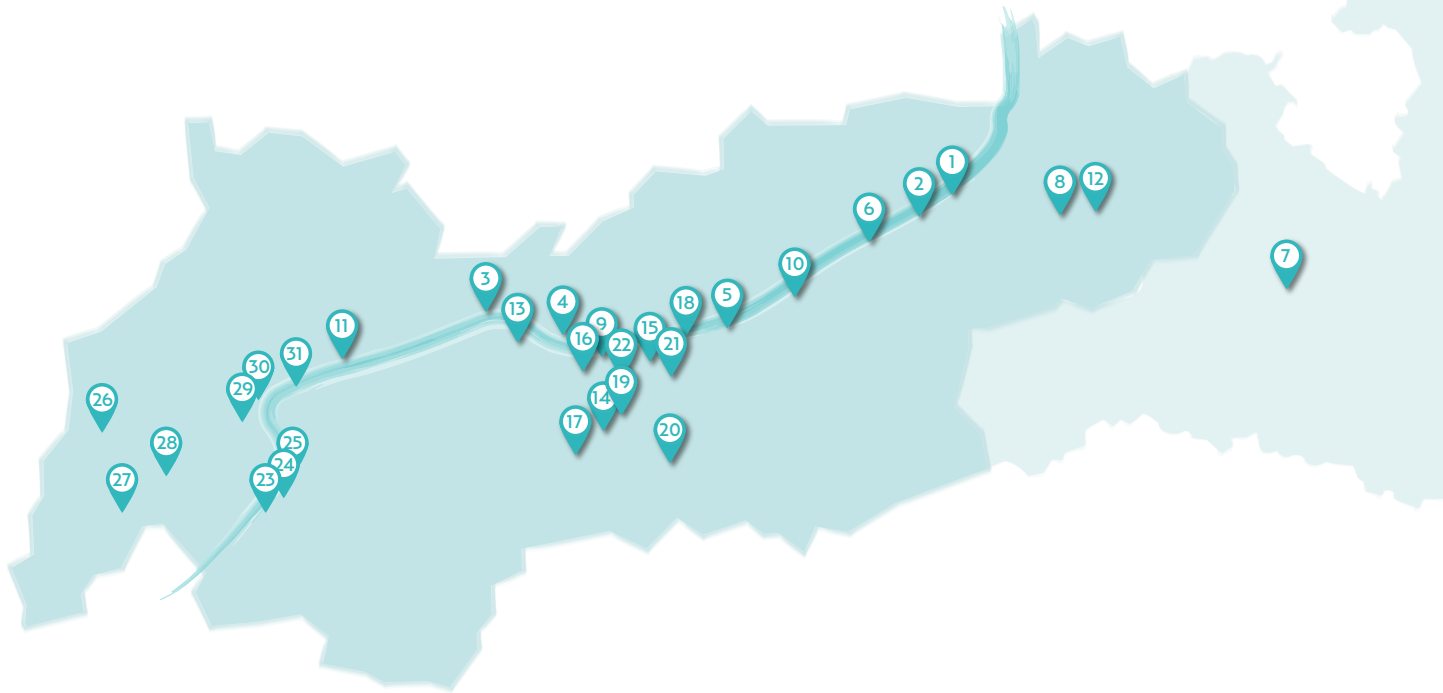

Stay Mobile Easily

Book a flo with the app, get in, and drive off. You can easily avoid time-consuming, nerve-wracking appointments for repairs, tire changes, or service.
